## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-17 and 36-55, drawn to a method of configuring an information management system, classified in class 709, subclass 220.
  - II. Claims 18-35 and 56-77, drawn to a method of configuring a content delivery system, classified in class 718, subclass 104.
  - III. Claims 78-91, drawn to a method of configuring or re-configuring an information management system, including obtaining service monitoring information, classified in class 709, subclass 224.
  - IV. Claim 92-107, drawn to a method of implementing differentiated service in an information management environment, classified in class 709, subclass 226.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the inventions have separate utility such as a method for configuring (I) an *information system*, which differs from a method of configuring (II) a *content delivery system*. Another method of configuring an information management system is disclosed, but this method (Group III) is oriented to obtaining *service monitoring information*. Group IV is directed to a method for *implementing* (not configuring) differentiated service in an information management system. See MPEP § 806.05(d).

Art Unit: 2182

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
